

Microsoft Word - Basic

Course Aim

Word Basic introduces users to text-oriented document creation. Participants will learn how to create, save, edit, format and print documents such as letters, memos and faxes.

Learn how to use Tables and Tabs to arrange text in columns and rows.

Learn about the various picture types and how to insert them into a Word document.

Learn how to Check Spelling and Find and Replace text.

Course Prerequisites

Previous experience using applications on a PC or Macintosh is a preferred but not a required prerequisite for this course.

Course Duration:

One day: 9:00am - 4:30pm

Inclusions:

Each participant will receive a comprehensive course manual. Exercise files are available to download from our web site.

What to Bring:

- Note pad & Pen.
- Examples of work from the office.
- Participants are encouraged to bring along a USB flash drive if they want copies of the work done during class.
