

Adobe Illustrator - Fundamentals

Course Aim

This comprehensive course introduces users to the leading industry standard Vector drawing tool, Adobe Illustrator.

Users will examine the creation of new illustrations for print or the web.

By the end of the course participants will have a good overview of the available tools in Adobe Illustrator in order to create drawings like, logos, cartoons, or web site interfaces.

Course Prerequisites

Previous experience using applications on a PC or Macintosh is an essential prerequisite for this course.

Users should be familiar with using a keyboard and mouse.

Course Duration:

One day: 9:00am - 4:30pm

Inclusions:

Each participant will receive a comprehensive course manual and relevant exercise files.

What to Bring:

- Note pad & Pen.
- Examples of work from the office.
- Participants are encouraged to bring along a USB flash drive if they want copies of the work done during class.
